Summary

Currently, I am a new graduate in the Department of Computer and Information Technology, and my specialization includes engineering, directing, building networks, and dealing with problems that arise on them.

I have the possibility of building and maintaining the day–to–day operation of computer networks that companies and organizations rely on. These networks typically include an intranet, extranet, local area network (LAN), and wide area network (WAN).

Education

Bachelor of Science: Computer Science and Information Technology – 2021 IBB University.

Skill

- ✪ **Install And Configure Computer Systems And Applications Within The Company.**
- ✪ **Implementation SNMP On Devices To Allow For Network Management.**
- ✪ **Implementation Of HSRP , DHCP ,VRP.**
- ✪ **Configure And Implement Routing Protocols RIP,OSPF,EIGRP,and ISIS.**
- ✪ **Monitor, diagnose, and resolve complex network.**
- ✪ **Perform system repairs and update software/operating systems.**
- ✪ **Troubleshoot network systems to identify and fix performance issues.**

Courses and Certificates

- ✪ **CCNA 200–301.**
- ✪ **MCSA 2016(Training).**
- ✪ **CCNA Securty.**
- ✪ **Microsoft Office.**
- ✪ **DATA Analysis in Wireshark.**

Programing language

✪C#.NET Programing.

✪Web Design (HTML– CSS – BootStrap – PHP – SQL Server-MY SQL).
